Hacking the Writing Workshop: Redesign with Making in Mind

Featuring: Angela Stockman
November 2, 2018 | 9:00 AM - 3:30 PM
Audience: K-8 Educators, Literacy Leaders and Coaches

Agility matters. While our schools push for proficiency, the world continues to demand something different. Something more. Something that seems ever changing. The fact is that writing is so much bigger than print today, and it's changing shape minute by minute. When we fail to acknowledge the changing shape of writing and the varied languages, mediums, and modalities that today's writers use to communicate their messages, we fail to help our students reach their full potential, too. Creating a future-ready writing workshop doesn't mean evading print, but it does require us to pursue a far greater vision. This session will start the conversation and empower your early beginnings.
