

# MARINA PRYSTUPA

OFFICE ASSISTANT

## PROFILE

I am an entrepreneurial business professional with 15 years of experience in a service environment. I have been responsible for business start-ups, project management and customer care. I was born and raised in the peace country, which formed a love for our beautiful sunsets that just can't be beat! I began my professional career graduating with an office administrative certificate and soon took on some fun adventures creating a successful businesses in the region with my husband. I have a huge passion for learning and developing new skills which lead me into continuing with my education and graduated from SAIT with a certificate in Marketing. I worked at Northwestern Polytechnic (Formerly GPRC) as an event coordinator for a number of years, where I had many opportunities to work with students, faculty, and the community. I learned the importance of continued academic learning in our province. My family and I spend the majority of our time in Grande Prairie, AB and our summers in Lake Country, BC where we own and operate a very busy and successful business. I enjoy spending time in the gym, walking my labradoodle puppy, and navigate the fun challenges of raising my two teenagers.
