Scheduling for Elementary Success: Timetables to Embed Interventions and Teacher Collaboration

Presented by: Kurtis Hewson

June 22 | 9:00 AM - 12:00 PM

As we look to move beyond the realities of cohorting and timetabling constraints from the past year, how do administrative teams navigate the complexities of scheduling embedded collaborative time for teacher teams and interventions for students? Once time is established, how can we ensure it is maximized for student learning and teacher collaboration? This session will focus on a variety of innovative ways to design an elementary timetable focused on school-wide supports for students and embedded collaborative time for teachers, as well as structures and processes to consider once that time is provided. A portion of the session will be spent brainstorming and supporting administrators in reviewing their own timetables and planning for the upcoming school year. Come ready to leave with some ideas to impact your master timetable to help support the learning needs of students!

Registration is OPEN for the #ABSummerLit Institute!

It's going to be a great couple of days in August, so register early - spots are limited.

The Alberta Summer Literacy Institute came about with two purposes in mind. To bring world renowned ELA educators to speak to Alberta teachers and to serve as an opportunity for Alberta teachers to share what they are doing in their classrooms with one another to start building a network of educators that can support each other and learn and grow together. If you are looking to learn from some of the best in the field of English Language Arts and to make connections with your colleagues around the province this would be a great opportunity.
