The Power of Playdoh	Using play based strategies, such as playdoh, can help build hand skills such as strength and motor control. This session will demonstrate how playdoh can be used as a fine motor activity as well as a sensory activity that promotes regulation and attention.
Speech and Language Development Through Play	Play is critical in the development of speech and language. At this centre, there will be a variety of games for the children to play, and learning strategies will be modeled.
Obstacle Course Challenge	Play is an important way for children to build motor patterns and skills. This centre is an obstacle course circuit where we will get to play and try lots of different ways to move. I look forward to seeing you all there and having fun!
Triple P - Positive Parenting Program.	* Session 1 – Developing good bedtime routines Session 2 – Dealing with disobedience
Reading Centre	Reading aloud with children is an important part of developing pre-reading skills. In this centre we will read Robert and talk about what the children liked, what they noticed and what questions they have.
Self-Care & Wellness for Children	The Circle of Courage uses the teachings of the Medicine Wheel to understand child development, balance in one’s life, and regulation for overall wellness in children.
